Software title	<b>ATENA</b>
Software Category	General Structural Analysis
Provider	Sample Agent
Software type	Commercial
Is Featured	No
Price	<b>\$ 0,00</b>

### Other Information

<b>Description</b>	Software for analysis of concrete and reinforced concrete structures. Software for nonlinear analysis of reinforced concrete structures. ATENA stands for Advanced Tool for Engineering Nonlinear Analysis. Simulates real behavior of concrete and reinforced concrete structures including concrete cracking, crushing and reinforcement yielding. Gives engineers the power to check and verify their concrete structures in a user friendly and unique graphical environment.
